

# CRUISER GO!

You've heard that nothing compares to an Electra Cruiser, and this year we're taking it up a notch. Introducing **Cruiser Go!**, an homage to the American classic but with an e-bike twist. Modern style paired with the comfort and control of our patented **Flat Foot Technology\*** make this single-speed e-bike an elevated classic.

Equipped with the **Hyena pedal-assist system**, this entry-level e-bike is easy to use and affordable for most. With a top assisted speed of **25 km/h**, riders can easily shift through 3 modes of support on the Hyena LED display. The rear hub motor delivers **250 watts** of power and **40Nm of torque**, giving riders a range up to 60 kilometers. Fun is around the corner on Electra's Cruiser Go!

The all-new collection comes in five colours and two Artist Series designs - **Bali Go!** and **Shibori Go!**

SERIES

SHIBORI GO! STEP-THRU / INDIGO FADE / SINGLE-SPEED / ARTIST SERIES / 5272072

## SHIBORI GO!

Shibori Go! takes inspiration from the ancient Japanese technique of indigo pigment dyeing where fabric is bunched or stitched together to create intricate patterns. These designs can be found on the fenders, frame, chainguard, and custom bell all set against a crisp white frame that fades to indigo.

**BALI GO!** STEP-THRU / SAND / SINGLE-SPEED / ARTIST SERIES / 5272073

## BALI GO!

Inspired by the lush tropical rain forests and jungles of the island, the Bali Go! features varying shades of rich metallic green leaves throughout the e-bike's design. Complimented by a cream-coloured frame inspired by white sandy beaches, the look is complete with a custom debossed saddle and grips, and matching bell.
